

Variable Speed Condensing Gas Furnace

Right for You

How can we say that Payne knows what's right for you? The answer is experience. D.W. Payne and sons started making the right products for their west coast customers back in 1914. Since that time, we've expanded nationwide with a brand that provides attractive, affordable products that work. These same principles apply to our family of deluxe condensing gas furnaces. Because this solid lineup of comfort equipment carries the Payne name, you can be sure it's the right product at the right price.

Warm Up with Payne

Everybody needs time to relax, to rejuvenate their minds and bodies. So when harsh, winter conditions outside drive you inside, it's always great to know that you can warm up with Payne. With an affordable and reliable Payne deluxe condensing gas furnace, you can look forward to the comfort of quiet operation, the economy of low utility bills and the freedom of minimal maintenance. Just set your thermostat, sit back and let Payne fill your home with warm, welcoming comfort.

The model PG9MTAV offers high efficiency, an impressive 92.1% AFUE (Annual Fuel Utilization Efficiency). This furnace enhances your comfort with variable speed blower technology. A variable speed blower will reduce humidity levels in your home and operate at a high electrical efficiency.

The PG9MTAV also offers two-stage heating operation. This model runs on low stage in most conditions to keep indoor temperatures consistent while using less gas than single-stage furnaces. In extreme cold conditions, the furnace will automatically switch to high stage operation. This mode provides full furnace capacity, quickly supplying the warmth and comfort your family deserves.

Variable Speed Fan Efficiency

The PG9MTAV furnace utilizes a high efficiency fan motor to lower your electric costs year-round. Paired with this furnace, your air conditioner or heat pump's SEER (Seasonal Energy Efficiency Ratio) may be increased up to 1 full point. Constant Fan mode allows indoor air to be continuously filtered and circulated, economically providing cleaner air and more consistent temperatures throughout the home.

Payne is the Right Choice

Payne offers the right products at the right price, offering dependable, comfortable and efficient comfort season after season. So make the decision easy on yourself - choose Payne. When you do, you're choosing a long-standing history of indoor comfort products that are just right for you.

Our Warranty

All Payne furnaces are covered with a ten-year limited parts warranty. Warranty applies to original owner of properly registered product.* Visit payne.com for details. The heat exchangers are protected by a twenty-year limited parts warranty.

*Warranty period is 5 years if not registered within 90 days. Products sold in California and Quebec automatically receive a 10-year warranty.

Your Total Comfort Connection with Payne

A Payne deluxe condensing gas furnace provides welcome warmth during winter's blustery chill. Add a Payne central air conditioner and properly matched evaporator coil and you can count on cool, soothing relief from summer's heat as well. It's a total system solution for indoor comfort you can count on all year long.
