Economic Innovation for Chilled Water Plant Ownership and Operation

ReliaSource™ ... A Revolutionary Alliance Designed for Reliable Chilled Water Delivery With Limited Capital Outlay

Energy costs are continuing to rise, causing large spikes in your annual operating budget. Capital is limited for plant overhauls or expansions. Yet your customers still need their product and your management needs a forecastable budget. Where do you turn for relief?

Introducing ReliaSource™ by Carrier. ReliaSource™ enables you, Carrier and a financial services company to outsource construction, operation and maintenance of your chilled water system. With ReliaSource, you can get the chilled water plant you need without an enormous one-time capital outlay, and you can get guaranteed chilled water output at a fixed annual cost.

1. System Needs Assessment

Our engineering team will work with you to evaluate your chilled water needs and design the most economically efficient plant option to guarantee you the chilled water you need.

2. Financial Analysis and Budget

Our financial solution provider will develop an annual operating cost budget that includes ownership costs, operating costs and energy costs, paid for with operating money over a fixed period instead of capital up front.

Program Benefits

- No large capital outlays
- Predictable, budgeted annual operating costs
- State of the art engineering, design
- Expert oversight of construction, commissioning and maintenance
- Offloading of the financial risk associated with construction delays, unexpected downtime
- Guaranteed results. Your contract guarantees the delivery of a fixed quantity of chilled water within the contract period.

3. Construction and Commissioning

Carrier will supervise the construction and commissioning of the plant... start to finish.

4. Operation

Carrier experts will supervise the operation and maintenance of the plant to ensure it delivers the required chilled water in an economically efficient manner. Because your operating costs are built into the budget, you have outsourced the financial risk of a maintenance issue or shutdown.

Turn to the Experts

Carrier Commercial Service is your one-stop solution for building technology systems, including HVAC, boiler and building controls repair, replacement, and retrofit. From emergency repairs to design-build solutions, and simple rooftop systems to complex cogeneration systems, Carrier is your solutions provider.
