System

ENHANCED INDOOR COMFORT WITH TEMPERATURE AND HUMIDITY CONTROL

CARRIER'S THERMIDISTAT™ CONTROL IS YOUR INDOOR COMFORT STATION.

CUSTOMIZED COMFORT

Carrier's Thermidistat Control puts you in charge of both temperature and humidity so you can truly enjoy customized comfort. We've combined the functions of two controls, our thermostat and our humidistat, to create a product that will positively affect your comfort. The Thermidistat Control can deliver consistent indoor temperatures while minimizing the discomfort of sticky, humid summers and dry, winter air. And, it offers the same easy-to-read display as our popular thermostats. Just take a few minutes to set your desired temperature and humidity settings and let Carrier do the rest.

IdealHumidity

The Carrier IdealHumidity System works all day and all night to control both temperature AND humidity for the ultimate in comfort all year long. Other systems rely on heating or cooling to control humidity. IdealHumidity from Carrier is the ONLY system that controls humidity even when the indoor temperature does not require heating or cooling operation. The Thermidistat Control can be a part of an IdealHumidity System with the addition of a variable speed furnace or fan coil and a humidifier. Ask your Carrier dealer for details.

FEATURES & FUNCTIONS

One control puts you in command of your indoor temperature and humidity.

Automatic humidity control is an option that lets your system automatically adjust indoor humidity based on current outdoor conditions. This function minimizes condensation build-up on your windows.

Vacation mode provides a one-button method for switching between your normal comfort schedule and a vacation schedule that makes sense while your home sits empty.

Indoor humidity display allows you to view the relative indoor humidity.

Auto changeover automatically switches between heating and cooling operation on days when both heating and cooling are necessary.

Clean filter indicator reminds you when it's time to clean or replace your system's air filter.

Large push buttons respond quickly to your touch and are easy to work with while operating your Thermidistat Control.

TSTATCCPRH01-B

Easy-to-read LCD display lights up for accurate readings at a glance, even under low-light conditions.

USER-FRIENDLY OPERATION

Our Thermidistat Control offers a wide range of functions designed to enhance your indoor comfort and make operation easy. When setting up your Thermidistat Control, you'll appreciate the time-saving easy set up features. Once you have set your Thermidistat Control you don't have to reset the system for family

trips because the Thermidistat Control switches over to vacation settings with the single touch of a button. Attractive appearance, simple operation and customized comfort — it's all yours with Carrier's Thermidistat Control.

WARRANTY

You can enjoy your indoor comfort without worrying about your system because Carrier backs all of its products with written warranties. The Thermidistat™ Control is protected by a **five-year limited warranty**. Ask your Carrier dealer for details on our extended warranties.
