Multi – Position Furnace Display Stand

\$500.00 + Shipping & Sales Tax

This stand fits a 17 ½” wide 80% multipoise furnace, and is helpful to quickly illustrate the many different ways to orient and vent this incredibly versatile furnace.

Base 30”X36” on 5” swivel casters with a removable 40” upright post. On top is welded a 2 ½” pipe with a 2” pipe inside that serves as the pivot with holes drilled at 90 degrees that holds a furnace in four positions. The furnace is held in a exterior frame 12” tall going across the back and extending 10” from the back towards the front. The side top and bottom flanges are 2” at the back and taper to 1” toward the front. The back has 1” flanges top and bottom reinforced with 1” square tubing. The display rack will be painted black.

Please allow 3 weeks for delivery after I receive your order.

Check on discounts for multiples of 5 or more.

This Stand Can Be Shipped UPS In 2 Boxes
