Automated Logic Corporation Expands Branch Operations serving
Greater New York City and Northern New Jersey

KENNESAW, Ga., June 30, 2008 – Automated Logic Corporation (ALC) has acquired the business of Building Control Technologies, Inc. (BCT), an independent controls contractor based in Lincoln Park, N.J. This is ALC's third dealership acquisition in the greater New York City area and follows the purchase of Marietta Automated Systems, Inc. and Building Technologies Group, Inc. in 2007; which today operate as Automated Logic – New York / New Jersey. The acquisition was completed on June 24. Terms of the deal were not disclosed.

BCT designs, installs and services heating, ventilation and air-conditioning control systems for commercial, information technology, educational, and institutional customers in the Northern New Jersey area. It has been an ALC dealership since 1998 and has a strong history of growth, technical expertise, and customer care. BCT principals Joel DeMoura and Ken Adams will continue in their respective management roles within the new Automated Logic branch office.

- more -

“BCT represents a great addition to our branch operations team,” said Gerry Hull, president of Automated Logic. “They share ALC’s customer and employee-focused culture and will provide the additional talent, resources, and geographic reach needed to serve our expanding customer base in the greater New York City and New Jersey market.”

DeMoura said, “This is an exciting opportunity for all of us at BCT. We’ve been a long-term partner of Automated Logic and we see this as a natural evolution of our business.” Adams added, “This is an opportunity to deliver even greater value to our customers and employees as we become an integral part of the growing ALC family.”

About Automated Logic Corp.

Automated Logic designs and manufactures innovative control systems primarily for heating, ventilating, air conditioning, lighting and energy management of buildings.
