Payne Heating & Cooling Systems (hereinafter "Company") warrants this product against failure due to defect in material or workmanship under normal use and maintenance as follows. Warranty periods begin on the date of original installation. If a part fails due to defect within the warranty period, Company will either provide only a new or remanufactured part to replace the failed defective part without charge for the part or, at Company's option, allow a credit in the amount of the then factory selling price for a comparable part toward the retail purchase price of a new Payne furnace. Except as otherwise stated herein, those are Company's exclusive obligations under this warranty for a product failure. This limited warranty is subject to all provisions, conditions, limitations and exclusions listed below and on the reverse (if any) of this document.

OWNER-OCCUPIED, SINGLE FAMILY RESIDENTIAL APPLICATIONS

This warranty is to the original purchasing owner only and is not transferable. Except as otherwise stated, **if the product is installed in an owner-occupied single family residence and is properly registered within 90 days after original installation (see Warranty Conditions below for registration instructions), then the warranty period will be ten (10) years from the date of installation. Otherwise the warranty period is five (5) years from the date of installation.** The warranty period on the heat exchangers is twenty (20) years.

MULTI-FAMILY RESIDENTIAL APPLICATIONS (Apartments, Condominiums, & Duplexes)

The warranty period is five (5) years and is not transferable.

OTHER APPLICATIONS

This warranty is freely transferable. The warranty period is ten (10) years on the heat exchanger and one (1) year on other parts.

Additional terms of secondary heat exchanger warranty – If the secondary heat exchanger fails due to a defect in material or workmanship during the warranty period, Company will also provide the labor to install the secondary heat exchanger only (the labor exclusion below notwithstanding). Warranty work must be performed by an authorized Payne dealer. Failure to use an authorized Payne dealer may result in additional labor charges not covered by this warranty. Alternatively, Company may, at its option, allow a credit in the amount of the then factory selling price for a new equivalent secondary heat exchanger, plus the then-current value of four hours of labor (which shall be determined using the then-current street rate of the dealer as registered with Company or its distributor from whom the new product is purchased) toward the retail purchase price of a new Payne furnace or provide a new furnace without charge if the retail price of a new furnace is less than the factory price of a new or equivalent secondary heat exchanger plus the then-current value of four hours of labor. This warranty does not include other costs incurred for diagnosing, removing, shipping, servicing or handling of either defective parts, or replacement parts, or new units.

LEGAL REMEDIES: The owner must notify the Company in writing, by certified or registered letter to Payne Heating & Cooling Systems, Warranty Claims, P.O. Box 4808, Syracuse, New York 13221, of any defect or complaint with the product, stating the defect or complaint and a specific request for repair, replacement, or other correction of the product under warranty, mailed at least thirty (30) days before pursuing any legal rights or remedies.
